

2009 5th World Congress on UltraSound in Emergency and Critical Care Medicine

Critical Care UltraSound

Advances and innovations in point-of-care and clinician performed UltraSound

- Keynote sessions on:
 - Contrast agents in trauma
 - UltraSound in the evaluation of the acute abdomen
 - UltraSound in the evaluation of shock
- State of the art lectures
- Research
- Reviews
- "Breakout" practical sessions
- "Ask the experts" discussion forums
- Pre-congress Workshops

More basic UltraSound education sessions occur throughout the program to cater for those with less UltraSound experience who wish to further their knowledge in this growing field.

A workshop day will be held on 3 September 2009 in conjunction with the WFUMB 12th World Congress.

For more information and to view the program, please log on to www.winfocus2009.org, email winfocus2009@conferenceaction.com.au or contact +61 2 9437 9333
